PROFESSIONAL SUMMARY

Web Developer with hands-on experience building responsive, user-friendly websites using HTML, CSS, JavaScript, React, and PHP/MySQL. Skilled in UI/UX design with Figma and graphic design, including logos, posters, and banners. Familiar with foundational AI and data analysis tools such as NumPy, Pandas, and Matplotlib. Completed front-end and full-stack internships delivering real-world web applications, and built multiple end-to-end projects, including a live streaming platform with AI-powered sentiment analysis. Eager to contribute technical and design skills to a growing development team.

SKILLS

- **Front-End Development:** HTML, CSS, JavaScript, React
- **Back-End Development:** PHP, MySQL
- **Content Management:** WordPress
- **UI/UX & Design:** Figma, Graphic Design (Logos, Posters, Banners)
- **Programming & Data:** Python, NumPy, Pandas, Matplotlib
- **Core Competencies:** Responsive Web Design, Database Integration, Problem Solving

EXPERIENCE

Web Developer Intern

February 2025 – May 2025

DevSpire Solution

- Gained practical experience in web development, including database integration and collaboration with front-end teams.
- Contributed to building and maintaining web application features as part of a collaborative development workflow.

Front-End Developer Intern

August 2025 – October 2025

Internship Pakistan

- Built responsive user interfaces using HTML, CSS, and JavaScript as part of a structured internship program.
- Strengthened UI/UX understanding and problem-solving abilities while working on real-world frontend tasks.
- Prepared for industry challenges through hands-on practice with modern front-end development workflows.

Junior Web Developer

1 June 2026 – 30 September 2026

City University of Science and Information Technology

- Built and maintained web application features in a professional university environment.
- Collaborated with development teams on real-world projects and MySQL database integration.

AI/ML Engineer

10 June 2026 – 10 September 2026

Codecelix

- Building and integrating AI-powered solutions in a remote engineering environment.
- Working on intelligent automation, model integration, and scalable AI workflows.

EDUCATION

City University of Science and Information Technology (CUSIT), Peshawar

2022 – 2026

Bachelor of Science in Computer Science (BSCS)

Technical College, Kohat Road, Peshawar

2023

Diploma in Information Technology

PROJECTS

Live Streaming Platform with Regional Insights (Final Year Project)

- Developed a web application enabling users to broadcast live content and interact with viewers in real time.
- Integrated an AI-powered sentiment analysis model to provide instant feedback on audience reactions.
- Enhanced creator-audience engagement by helping creators understand audience sentiment effectively.

Clinic Database Management System

- Built a web-based platform allowing patients to book appointments with available doctors.
- Managed patient records, doctor schedules, and appointment data through an efficient database design.
- Designed a user-friendly interface to improve healthcare service accessibility and management.

Student Record Management System

- Developed a web application to store, manage, and update student information efficiently.
- Enabled easy access to academic records, improving organization and data management.
